

Protocol Amendment 3: Visit Schedule

This amendment supersedes version 2.0 dated 1 March 2026.
Participants attend the first visit within 14 days of screening.
Site staff record vital signs before any study procedure begins.
Adverse events are reported to the sponsor within 24 hours of the site becoming aware of them. The investigator confirms each report and signs the official form before it is filed.
Dose changes follow the table in Section 6.2 of this protocol.
